Cisco College and Abilene Regional P-16 Council are pleased to announce the new Completer's Scholarship for 2013-14. To be eligible for the scholarship, students at Cisco College must have stopped attending college for at least one semester, (Fall 2013) and they must be only one to two semesters away from graduating with either an Associates degree or a technical certificate. They must also qualify for financial aid. (Qualifying for financial aid just means that students have filed their FAFSA at www.fafsa.gov.)
