Thank you for your interest in Cisco College’s Surgical Technology Program. The SRGT Program is a 12-month program with one start in August of each year. Applications for the August 2016 start accepted between January 19, 2016 and May 06, 2016.

The Surgical Technology Program is a strenuous program requiring your full time commitment and attention. It is a limited access program and accepts no more than 10 students; as a result, the selection process is taken very seriously.

**Selection criteria are as follows:**

a. Cumulative GPA no less than a 2.0  
b. Biographical essay discussing why you want to become a Surgical Technologist  
c. Completion of pre-requisite courses with a grade of “C” or better or current enrollment and satisfactory progress. SRGT pre-requisites: MDCA 1305; BIOL2401; BIOL2402  
d. Any additional academic, occupational/allied health, or science related courses taken and passed with a “C” or better are viewed favorably.  
e. Formal interview with a panel including but not limited to the Program Director, Chair, and other allied health professionals.

You are required to provide the Surgical Technology Program Director with a copy of your immunization record containing proof (titer, immunization, or physician’s documentation of illness) of the following immunizations and a negative Tuberculin skin test:

- Varicella
- Tetanus-Diphtheria
- MMR – x2
- 2 of 3 Hepatitis B
- Tuberculin skin test
- Bacterial Meningitis (if under 30 yoa)

You must also provide a copy of current CPR certification for healthcare providers.

**Background/Drug Urinalysis (Required if accepted into the program, not for submission of application)**

Upon acceptance into the SRGT program, a background check, and drug urinalysis will be required. Certain convictions may result in denial by a clinical site and/or restrict employment in the healthcare field. An 8-panel urine drug screen is also required.

For information regarding the program costs, please contact Cisco College Financial Aid Department at 325-794-4412.

Should you have any questions, please do not hesitate to contact me.

Thank you,

Jennifer Mazey, CST, AAS
