**Additional Information**

Worked as a PBX operator and admissions clerk for the hospital while putting myself through LVN school. While working on pediatrics I would willingly float to other areas such as post partum and NICU. Took part in working for many of the OB-GYN physicians' offices when they were in need of help. Also worked for Dr. Reedy's office and gained experience in gynecological oncology. Known as a patient advocate and team player; believe in bringing a positive attitude to work and taking care of my patients as if they were a member of my own family.
