

Core Curriculum Plan: *GET CORE COMPLETE!*

The core curriculum is a 42-hour block of general education courses that makes up “the basics” of a 2-year degree or the lower-level course work of a baccalaureate degree. Use the core curriculum plan to keep track of your progress towards becoming core complete. A course may only fulfill 1 core requirement.

Any public college or university in Texas must accept in transfer the full 42-hours in place of the core curriculum of that college or university for any student who successfully completes the full 42-hours.
