### **FOR IMMEDIATE RELEASE**

#### **Cisco College Awarded Student Emergency Aid Grant**

*Cisco, Texas - May 18, 2020* - Cisco College is pleased to announce that the College is one of fifty-seven Texas higher education institutions to be awarded student emergency aid grants totaling \$711,000 from the Texas Higher Education Coordinating Board, Greater Texas Foundation and the Trellis Foundation.

Grant applications were received from 124 higher education institutions across Texas, requesting assistance for a variety of needs including food, housing, and technology support to help with the transition to online learning.

“Greater Texas Foundation’s mission centers on helping more Texas students earn postsecondary credentials. This fund is a critical resource for directing financial support to students impacted by COVID-19 so they can stay on track to achieve their educational goals,” said Greater Texas Foundation President and Chief Executive Officer, Sue McMillin.

“Our Texas colleges and universities are playing a vital role in Texas’s recovery efforts,” said Trellis Foundation Executive Director, Kristin Boyer. “We appreciate that so many of them are putting students at the center of these efforts, and we thank the Coordinating Board for stepping up to support them through the creation of this emergency fund.”

The grants are designed to expand existing emergency aid programs offered by Texas higher educational institutions and to complement the federal funds provided by the CARES Act by providing resources for capacity-building support of emergency aid programs or through direct emergency student aid.

Cisco College recently received \$908,774 student emergency aid funds with the CARES Act and disbursements are currently underway to students in need.

### ***About Cisco College***

Since first admitting students in 1940, Cisco College has offered programs and activities intended to encourage lifelong learning and enhance the quality of life in the communities it serves.

As a member of the Texas state system of publicly supported institutions of higher education, Cisco College maintains an open-door admissions policy and provides an array of learning, skill development and life experiences to motivate and challenge students. Classes are offered at two primary locations, Cisco and Abilene, in addition to several other off-campus sites. The College strives to maintain a student/faculty ratio which facilitates close interaction between faculty and students.

Cisco College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award Associate level degrees.
