FOR IMMEDIATE RELEASE

Cisco College Engineering Students Take First Place at ASU Engineering Design Challenge

Abilene, Texas - March 1, 2025 – Cisco College engineering students recently participated in the Engineering Design Challenge at Angelo State University’s Experience Engineering Event, competing against students from multiple schools in an exciting test of skill and innovation. This annual event provides students with the opportunity to apply their engineering knowledge in a hands-on, competitive environment, fostering creativity, problem-solving, and teamwork.

The challenge required teams to design and build a sorting mechanism using limited materials and time. The Cisco College engineering team, featuring Alex Petrescu and Andrew Converse, demonstrated exceptional ingenuity, collaboration, and technical expertise to secure first place. Their success highlights the strength of Cisco College’s engineering program in preparing students for real-world engineering challenges.

In recognition of their outstanding performance, each student was awarded a \$500 ASU Scholarship. This accomplishment is a testament to the hard work and dedication of Cisco College’s engineering students and faculty.

Cisco College is proud of its students for their impressive achievement and looks forward to their continued success in future competitions and academic endeavors.

For more information, please contact: Jessica Morrow, Mathematics Division Chair & Professor of Mathematics - Jessica.Morrow@cisco.edu.

About Cisco College

Since first admitting students in 1940, Cisco College has offered programs and activities intended to encourage lifelong learning and enhance the quality of life in the communities it serves.

As a member of the Texas state system of publicly supported institutions of higher education, Cisco College maintains an open-door admissions policy and provides an array of learning, skill development and life experiences to motivate and challenge students. Classes are offered at two primary locations, Cisco and Abilene, in addition to several other off-campus sites. The College strives to maintain a student/faculty ratio which facilitates close interaction between faculty and students.

Cisco College is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award Associate level degrees.
