The Workforce division recommends that we sell the CNC machines currently on the Cisco Campus back to the vendor for market value (option included in purchase agreement). Instructors based in Eastland County have not been viable and employer partnerships have not resulted in program enrollment. Resale funds would allow the CTE programs in Abilene to purchase a new plasma cutter needed for Energy Systems and Controls (industrial technology) and use in maintaining equipment and supporting activities across CTE programs. The current cutter is 10+years old and cannot be repaired any longer. The machine is not grant-funded, and we are not bound by any state or program disposition requirement. Regent Greg Cary made the motion and Regent Ricky Whatley seconded, to sell the CNC machines back to the vendor for market value and purchase a new plasma cutter, as presented. Motion passed 5 – 0, with Regents Kyle Wilks, Kenneth Preston, Jayln Johnson, and Staci Wilks absent.
