

TSIA2 TESTING FOR OTHER COLLEGES

Thank you for contacting the Testing Center. You have indicated that you plan to attend another college but would like to take your TSIA2 test at Cisco College.

Proctoring for other colleges is done through remote test vouchers. You will need to contact the college you plan to attend to have them create a remote test voucher for Cisco College. If you are a current or previous student at Cisco College and have a Cisco College student ID number, you may [click here](#) to schedule a TSIA2 test.

PLEASE NOTE: Testing for other universities is provided as space allows. We are unable to schedule testing for other universities during the months of August and October.

When you contact your college for a voucher, you may want to ask for a remote voucher to test through Meazure Learning, which would allow you to test at home instead of at Cisco College. [Click here](#) **for more information about remote testing.**

If you choose to test at Cisco College, please note we have a campus in both Abilene, TX and Cisco, TX. Please be sure to have your school select the correct campus at which you would like to test.

After your college creates a voucher and you receive the Remote Voucher Notification from Accuplacer, it will be your responsibility to contact the Cisco College Testing Center (testing@cisco.edu) for scheduling and payment information.
